

NATIONWIDE PRISON STRIKE

AUGUST 21 - SEPTEMBER 9

#AUGUST21 #PRISONSTRIKE

There is a prisoner movement rising in this country.

Independent. Strategic. Political.

Prisoner collective uprising, strikes, and work stoppages have been increasing in frequency and size over the last decade.

On April 15, 2018, seven comrades lost their lives in a senseless uprising that could have been avoided if not for the greed wrought by mass incarceration and the lack of respect for human life that is embedded in our nation's penal ideology.

This prisoner movement felt it impossible to continue without a call to action. The call for a nationwide prison strike was issued on April 23, 2018. These prisoners are demanding humane living conditions, access to rehabilitation, sentencing, a right to vote, and the end to modern-day slavery.
